33rd Annual Combat Pistol PPC Lt. Joseph Beesley Memorial Match

January 10th - 20th, 2019

About the **Taylor Pistol Club Foundation**: The purpose of our club is to educate the public in the safe use of firearms through instruction and competition. We support our community through a long standing cooperative effort with the City of Taylor's Police Department and multiple Charity Groups. Our shooting disciplines include:

Bullseye: This shooting discipline is focused on accuracy and competition. We have many coveted NRA Distinguished shooters in the club and regularly attend the National Match at Camp Perry, OH.

Action Pistol: We shoot drills that encourage you to test and practice with your carry gear. Discover what works and what does not.

PPC Combat: (NRA Course of Fire) For over 30 years we have hosted one of the largest Indoor competitions in the nation. We will host the 2019 Outdoor PPC Matches in June, and Michigan Police Combat Pistol Association's State Championship in August.

Education:

We make education a priority, and so we offer numerous classes, including "Introductions to Basic Combat PPC", "Introduction to Pistol Manipulation", Shotgun seminars, and CPL courses. We've held courses from Patriot Defense Training and National Marksman Champion, Ron Avery taught his "Science of Shooting" Class, and National Competitor Kyle Hendrickson held his shooters diagnostic class, and Carbine manipulation. Many more classes will be forthcoming.

Our Partner:

The Taylor Pistol Club helps maintain and improve the two **Taylor Police Department** ranges for the past 50 years. One indoor 12 lane and one outdoor 60 lane range with rotating targets. These are utilized by multiple agencies. Recent improvements include the addition of two independent running man lanes to the outdoor range and upgrading the range lighting, training and ready room, of the Indoor Range.

Our Favorite Charities:

The **Penrickton Center for Blind Children** helps blind multiple disability children and families develop independence skills. Currently, they specialize in treating blind children ages one through twelve with at least one additional handicap such as deafness, cerebral palsy, brain damage, developmental delay and seizures. Funding is from Private Donations. No Federal Funding.

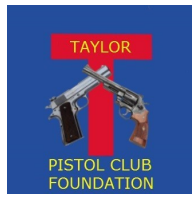

26530 Eureka Rd, Taylor, MI 48180 (734) 946-7500 <http://penrickton.com/>

We make a donation to this wonderful center every year.

In addition, we give to the USA - Active Duty Military, USA Olympic Shooting Team, and the Camp Perry National Youth Program.
